

THE UNIVERSITY COLLEGE
OF THE CARIBOO
Computing Science

COMP 113 - Computer Programming I (3,1,1)
Fall, 2004

Lab 1

To be completed in your lab. Do not hand in.

Lab Preparation

Read pages 22 – 25 and 41 – 50. These pages explain the programs you will be working on in the lab. Your lab instructor will also review the programs with you at the beginning of the lab, but the textbook description is more complete so you should read the pages outlined above also.

Problems:

1. Type in and run the program, except for the last 3 lines, in display 1.5 page 23 of your textbook.
2. Type in and run the program, except for the last 3 lines, in display 2.1 page 41 of your textbook.

Note: H:\COMP113\labs contains a document titled UsingJCreator.doc that describes how to run your programs.
